## Why Choose GigAir Dedicated Wireless?

### As Fast as Fiber Optic Internet

Our GigAir internet technology matches fiber optic speeds, so you can stream, work, and play on multiple devices any way you want.

### Quick & Easy Installation

No need to dig up the ground—the signal broadcasts from the roof of your building.

### Competitive Rates

Our package prices don't change, so you can get the best value for your money.

### Reliable Technology

With our GigAir technology, spotty and slow connections are a frustration of the past.

### Local Customer Support

Our neighbourly team is right here in St. Paul, Alberta. Give us a call; we're here to help.
